FOOD WORKS

Nourish Your Community, Grow Your Impact.

Let's build a city where our food system connects us, nourishes our communities, and regenerates our planet. A home where everyone can grow, share and enjoy healthy, nature friendly food. For a decade, Food Works has pioneered this change. We don't just dream of a better food system; we build it, seed by seed, meal by meal. Your business can be a vital partner in this transformative work. Together we can build a better food system that cares for our planet and our people.

Meaningful Partnerships for a Better Sheffield

We believe in collaborations that are as rewarding for your business as they are vital for our mission. Here are a few ways to make a difference, or let's create a bespoke opportunity that aligns perfectly with your values:

Nourish Your Team, Support Our City with Just Meals

Offer your staff delicious, chef-prepared Just Meals – healthy, convenient, and sustainable food, ready in minutes and served in home-compostable packaging. Every meal enjoyed by your team helps us provide free meals for children during school holidays and support communities across Sheffield. It's workplace wellbeing with a powerful community heart.

Engage Your Team: Unforgettable Away Days

Unite your team and ignite their passion with a unique Food Works experience. Choose from our hugely popular creative cooking challenges (think Ready Steady Cook with our expert chefs!), hands-on food growing sessions, or even bespoke team dining events. We offer memorable, meaningful team building that makes a tangible difference.

Invest in Change: Direct Impact Contributions

Drive lasting change with a direct financial contribution. You can support our overall mission to create a better food system for all, or choose to champion a specific cause close to your heart – from ensuring children have healthy holiday meals to helping local schools establish vibrant food gardens. We'll share regular updates on the incredible impact your support makes and offer further opportunities for your team to get involved.

Let's Create a Partnership That Works for You.

Ready to explore how your business can help build a healthier, more resilient Sheffield? We'd love to talk. Get in touch with Rene Meijer:
